Design and Programming

\$ 2500.00

Computer Input

0.69/document

Computer Output. Includes a permuted index of the titles and a serial listing of all documents.

When there are 1,000 documents

\$ 330.00/run

When there are 5,000 documents

\$ 1650.00/run

When there are 20,000 documents

\$ 6500.00/run

These costs provide for one run of the permuted index and serial listing at the end of a ten month period. Earlier printouts according to the above schedule.

Assuming an input of 500 documents per month, the cost to operate the system for the next ten months would be approximately \$ 5000.00.
